ABOUT THE SPEAKER:

Mr. Ron Sturgeon is the very definition of a serial entrepreneur. Although he didn't start with many secret advantages, Ron has always had a nose for opportunity and a knack for entrepreneurship. When his father died, his stepmother threw 17-year-old Ron out of the house. Homeless but undeterred, Ron parlayed a \$1500 inheritance and a used VW into a successful auto repair business right out of high school.

The repair business grew into one of the largest auto salvage businesses in the USA. In 2001, Ron founded an auto auction to help insurance companies in Texas dispose of salvaged vehicles. Fifteen months later he sold it.

A best selling author, Ron wrote "How to Salvage Millions from Your Small Business", a guide for entrepreneurs, which is now in its third printing. His current ventures include an exotic car rental company, and a full schedule of consulting and public speaking.
